Are you allowed to use GenAI at school?

At the moment, young people in Scotland can use GenAI for learning if their school says it is OK, but they can't use it for assessment in exams in high school.

What do you think?

Lots of adults in education in Scotland are thinking carefully about how AI could help children learn in schools and they want to hear young people's opinions about this.

Recent GenAI tools offer new ways of learning that could change schools forever. While it's tempting to bring them into schools in a rush, we should take time to think carefully about the best way to introduce them fairly. Do you think it is fair to use GenAI tools for work which you will be assessed for? Why?
